New starting class: Masters

Masters for athletes aged 40 and over

At the annual departmental meeting, it was decided to offer a new age group on a trial basis in 2024.

The aim is to make the IDM Para Athletics more interesting. The throwing weights correspond to those of the over-40 age group.

Registration in this class is voluntary. The existing senior age group will continue to be offered. During the trial period, it will be evaluated whether this age group can be offered permanently. The final decision will be made at the departmental meeting at the end of 2024.

When registering, please state explicitly whether you wish to start in the senior class or in the master class. It is not possible to start in both classes.

Evaluation of the German Champion titles

The competition regulations stipulate that a German championship title is only awarded if at least 3 participants have taken part in the competition. Due to the large number of sports classes, it often happens that no German championship title can be awarded. In order to make participation in the German Championships more attractive again, the department meeting decided to introduce a new classification system on a trial basis. Based on the Invictus Games system, sport classes will be judged together in a collective sport class according to RAZA points. The athlete with the most points is awarded the title of "German Champion", provided at least 3 participants have taken part.
