NOTE OF THANKS

Dear participating teams,

On behalf of World ParaVolley, I wish to congratulate all participating teams and in particular, the winning team, Bosnia and Herzegovina and the German mens team that has now qualified for the 2016 Rio Paralympic Games.

Also, ParaVolley Europe and the Organisers should be congratulated on staging such a great event for the teams. It is never easy to deliver a high quality event within the economic constraints. From afar, the competition courts and the promotion of the event looked to be of an exceptionally high standard.

Next year we look forward to cooperating with the Rio organising committee to deliver the Sitting Volleyball competition at the Paralympic Games at which for the first time, 8 mens and 8 womens teams will compete.

Safe journey home to all !

Congratulations to the winner of
2015 ParaVolley Europe Sitting
Volleyball Championship Men
Warendorf, Germany:

BOSNIA AND HERZEGOVINA

We hope you had a safe journey home
and we will see you again!

Dear participating teams!

During the week ParaVolley Europe is going to discuss with each nation personally about the development of sitting volleyball. We wish to hear your ideas and hope you can share your experiences and knowledge with us in order to develop our sport further and make it more fascinating among young people, beginners and other partners. Please read the following information and you will get the idea what we are working on.

Introduction to Small Sided Games

ParaVolley Europe (PVE) and VolleySLIDE (VS) are in discussions with World ParaVolley about the implementation of a small sided game to be used for low level competitions to aid the development of new Sitting Volleyball players. It is planned that this small sided game will be of particular use for junior athletes (15 to 21 years of age).

The long term plan is to develop a full pathway of modified games so that younger players can move through the various formats ending up in the 6 v 6 game with a full range of the required technical skills.

To confirm, the concept and motive behind the use of small sided games is a reduced number of players = a higher number of ball contacts, and consequently learning opportunities.

With this questionnaire we hope to learn what formats (smaller than the traditional 6 v 6) you are using or you would prefer to use within your country, both for training and competition.

We thank you in advance for your assistance with this, but as you can understand it is to everyone's advantage to have a standard approach across the whole world.

According to information that we will collect from the participating nations of the men's and women's European Championships in 2015 we will write a summary which will be published on the PVE and VS website in the end of 2015.

Thank you very much for your cooperation.

Organisers wanted for ParaVolley Europe Development Events 2016

ParaVolley Europe (PVE) is looking for organisers for a **Sitting Volleyball Youth Camp** and a **New Nation Tournament**. The Youth Camp should be organised during the summer months in 2016 (preferable in the beginning of August). The dates for the New Nation Tournament are flexible and can be decided by the organizer. Both events should be at least four (4) day Thursday-Sunday events.

During the men European Championship 2015 in Germany and the women European Championship 2015 in Slovenia ParaVolley Europe is happy to tell you more details about the above mentioned development events. **Please contact us and we discuss with you personally during the European Championships.**
